Programming Basics
Practice with Conditionals

ACTIVITY SLIDE

Write the first scene of an adventure game.

- Write the initial story to the screen
- Write the question at the end of your story to have three branches.
- Write what happens next for each direction
- Share your story with your classmates!

Example

Write the first scene of an adventure game.

- "You went hiking with your friends."
- "A path diverges in the woods. Type either A B or C based on your decision"
  - A) Move forward
  - B) Go left
  - C) Go right
- If you move forward: "You find a campsite where you meet friends!"
- If you go left: "You run into a bear!"
- If you go right: "You discover a new type of flower and become famous botanists upon returning home."

Gallery Walk

1. Interact with other people's chatbots.

2. **Glow:** Write on a sticky note - 1 thing you liked

3. **Grow:** Write on a sticky note - 1 thing you think could be improved

DISCUSSION

- How did it feel giving / receiving feedback?

- What about your program are you proud of?
